Complying with U.S. Export Controls

**January 12-13, 2022
Virtual Seminar**

Complying with U.S. Export Controls

The two-day program is led by BIS's professional counseling staff and provides an in-depth examination of the Export Administration Regulations (EAR). The program will cover the information exporters need to know to comply with U.S. export control requirements on commercial goods. We will focus on what items and activities are subject to the EAR; steps to take to determine the export licensing requirements for your item; how to determine your export control classification number (ECCN); when you can export or reexport without applying for a license; export clearance procedures and record keeping requirements; and real life examples in applying this information. Presenters will virtually conduct a number of "hands-on" exercises that will prepare you to apply the regulations to your own company's export activities. Attendees will work on exercises in smaller groups in virtual spaces with BIS experts. This program is well suited for those who need a comprehensive understanding of their obligations under the EAR.

About the Instructors

The instructors are experienced export policy specialists, engineers, and enforcement personnel from BIS's Washington, D.C. headquarters and field offices, as well as representatives from other U.S. government agencies, such as the Bureau of the Census, as appropriate. There will be an opportunity to ask questions of the instructors.

Location/time

The program will be held virtually.

Registration

The registration fee for the *Complying with U.S. Export Controls* seminar is \$495 per person. No refunds will be issued after January 4, 2022. To guarantee placement for the BIS seminar: [Click here to register](#).
